

# BERRIDGE COMPLIANCE WITH LEED 2.2: RECYCLE CONTENT & LOCATION OF MANUFACTURING FACILITY

The information below was taken from the LEED "Green Building Rating System for New Construction and Major Renovations" document dated October 2005, Pages 53 (Recycled Content) & 55 (Regional Material Manufacturing).

**LEED-NC**

**Green Building Rating System  
For New Construction &  
Major Renovations  
Version 2.2**

MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer)  
1 Point

**Recycle content:**

- Post-consumer steel recycled content	23.0%
- Post-industrial steel recycled content	<u>7.3%</u>
	30.3%

MR Credit 5.1: Regional Materials: 10% Extracted, Processed & Manufactured Regionally  
1 Point

**Requirements:**

Use building materials or products that have been extracted, harvested or recovered, as well as manufactured, within 500 miles of the project site for a minimum of 10% (based on cost) of the total materials value. If only a fraction of a product or material is extracted/harvested/recovered and manufactured locally, then only that percentage (by weight) shall contribute to the regional value.

**Location of Manufacturing Facility:**

Primary Steel Mill: U.S. Steel Works, Fairfield, AL (Birmingham, AL vicinity)

Berridge Manufacturing Facility: Seguin, TX (factory-produced products)

Alternate Manufacturing Facility: Location of Portable Roll Former used to site-form panels.
