# BERRIDGE CURVED S-DECK PANEL

- ***Smoothly Curved***
- ***Minimum 5'-0" Radius***
- ***Enhanced Strength & Rigidity***
- ***Perfect for Covered Walkways, Shelter Covers, etc.***
- ***24-Gauge G90***
- ***Available in all Berridge Kynar 500 Colors***

Smoothly curved corrugated S-Deck, available in all Berridge Kynar 500 color finishes is now available in radii ranging from as tight as 5'-0 feet upward.

Not only does curving greatly enhance the aesthetic appearance of S-Deck, it also provides additional strength and rigidity, making it suitable for open-framed walkway covers, carports, shelters, etc. The classic "S-Curve" lines of Berridge Curved S-Deck will make it a popular choice of architects, specifiers and building owners.
