Vinyl Weatherseal: US Patent No. 4641475

## SPECIFICATIONS

(Request complete specifications from factory)

Furnish and install Berridge High Seam Tee-Panel Standing Seam System as manufactured by Berridge Manufacturing Company, San Antonio, Texas.

### MANUFACTURE:

Panels shall be roll-formed in continuous lengths from coil with the Berridge SS-1421 Portable Roll-Former. Seam height shall be 1" or 1 1/2" and seam spacing shall be 18-1/4" on-center. Snap-on seams shall contain an extruded vinyl weather seal insert. Certification shall be submitted, based on independent testing laboratory, indicating no measurable water penetration through the standing seam system when tested in accordance with ASTM E331-86. Where required, panel assembly shall be Underwriter's Laboratory UL90, pursuant to Construction Number 297 & 475 for galvalume and 296 for 1" seam aluminum. Entire roof area shall be covered with a minimum of one layer of approved underlayment.
