Roofs of Distinction

Volume 20, No. 2, Summer 2007

## In This Issue:

Featured Customer: Buxcon Sheet Metal, Inc.

Architect's View: Jeff Katz Architecture

## THE INSIDE STORY

Jack Berridge  
Chairman  
of the Board

Buxcon Sheet Metal, Inc. of San Diego, the customer featured in this issue of BYLINE, is a dynamic team composed of Buxcon Sheet Metal, Inc., LTD Sheet Metal, Inc., and Specialty Metals Fabrication, Inc. The craftsmanship performed by these firms in both commercial and residential projects is striking as illustrated in this issue of BYLINE.

Jeff Katz Architects, featured in the "Architect's View" section, is a young, energetic team of creative professionals whose field of expertise includes both public sector and private facilities.

Jack. A. Berridge  
Chairman of the Board

### the Berridge BYLINE

BERRIDGE MANUFACTURING COMPANY  
In cooperation with Berridge California Sales Corporation

#### EDITORIAL POLICY

News Releases, photographs and manuscripts regarding the application of Berridge products are requested and should be submitted to the Editor, Berridge BYLINE, and will be returned only if so requested in advance.

Editor: David J. Doyle, Vice President, Marketing

Berridge California Sales Corporation was formed to meet and serve the needs of architectural metal roofing customers and architects in the southern California area. Berridge California Sales Corporation has the exclusive right to promote and market Berridge Manufacturing Company products within southern California. Alan Stovesand has been the Regional Sales Manager for Berridge California Sales Corporation since 2004. He was previously employed by Berridge Manufacturing Company as Regional Sales Manager for the Denver, Colorado region. He has twelve years of experience in the architectural metal industry.

Exclusive representation of Berridge Manufacturing Company products and services are provided in the southern California area by and through Berridge California Sales Corporation. All Berridge Manufacturing Company products are available in the southern California area through Berridge California Sales Corporation. Customers in areas outside of southern California should contact their local Berridge Manufacturing Company sales offices. Architects should feel free to contact the Houston office.

## Buxcon Sheet Metal: A Dynamic Team Providing Quality Metal Roofing for Commercial & Residential Projects

Left to Right: Tom Buxton, LTD Sheet Metal, Inc.; Dick Buxton, Buxcon Sheet Metal, Inc., and Larry Hendry, Specialty Metals Fabrication, Inc.

**B**uxcon Sheet Metal evolved from West Coast Sheet Metal which was founded by Gil Buxton in 1969. The company has gone through several name changes over the past thirty six years but the guiding principle has remained consistent: provide the customer with the highest level of quality in metal roofing and custom sheet metal work. When Gil Buxton closed his original company in 1994, his three sons Dick, Tom and Larry started their own sheet metal firm which is now known as Buxcon Sheet Metal. In addition to Buxcon Sheet Metal which specializes in commercial work, LTD Sheet Metal focuses on residential and Specialty Metals Fabrication supplies custom sheet metal work such as finials, domes and other special items. Buxcon and its predecessors have offered Berridge standing seam metal roofing since the mid 1980's when Gil Buxton purchased a Berridge Model SS-14 portable roll former. The ability to site form straight and curved standing seam metal roofing has provided Buxcon with additional flexibility to better serve their customers. As Tom Buxton notes: "Site forming provides us with the ability to produce according to our customer's schedule -- not our supplier's schedule!" In addition to their Berridge SS-14, Buxcon operates a fully-

equipped machine shop with state of the art metal fabricating equipment including two computerized folding machines, a shear, slitter and cut-to-length line. No job is too complex for Buxcon its sister companies LTD Sheet Metal and Specialty Metals Fabrication.

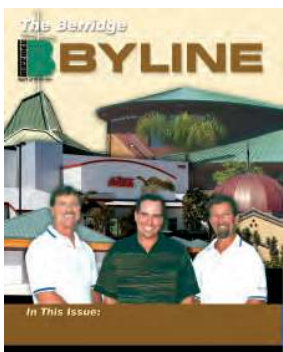

***“Site forming provides us with the ability to produce according to our customer’s schedule -- not our supplier’s schedule!”***

The Jeff Katz Architecture Management Team - (L-R): Jeff Zubik, Project Architect; Jeff Katz, AIA, Principal

**J**eff Katz Architecture is a full service Architectural, Planning and Construction Management firm founded in 1992. The firm's Principal Architect, Jeff Katz, AIA, has many years of experience working on public and private sector projects for a variety of clients including the City of Oceanside, City of National City, City of San Diego, City of La Mesa, City of Chula vista, San Miguel Consolidated Fire Protection District, City of Banning, Murrieta Fire Protection District, SeaWorld San Diego, Hewlett Packard, San Diego Unified School District and the Department of Defense.

In describing his firm, Jeff Katz notes: *"We are above all, a service-oriented firm, concerned with finding architectural solutions to our clients' functional, human and economic needs -- we pride ourselves on having achieved three distinctive goals: We have never missed a client imposed deadline; Our cost estimates have consistently been within +/- 5% of bid price; and Change orders, other than those requested by the owner, average less than 1%."*
