

# Berridge HC-16 Panel

## WALL, SOFFIT, CEILING AND FASCIA PANEL SYSTEM

The Berridge HC-16 Panel is a concealed fastener 7/8" deep corrugated metal wall panel which can be installed horizontally or vertically. This multipurpose panel provides a traditional corrugated appearance without the use of exposed fasteners. The panel is available in 24 gauge and 22 gauge steel and 0.032 and 0.040 aluminum and can interlock with Berridge's HR and HS panel profiles for maximum design flexibility.

### Materials

24 and 22 Gauge Steel  
0.032 and 0.040 Aluminum

### Specifications

Uses: Wall, Soffit, Ceiling, Fascia, Screen Wall

Coverage: 16"

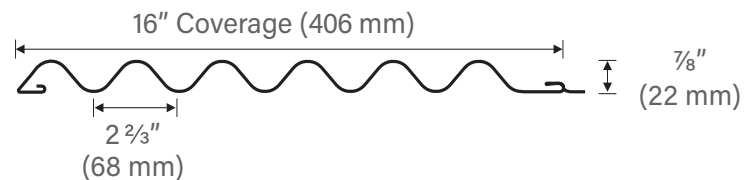

Finishes: Smooth

Fasteners: Concealed

Applications: horizontal or vertical over open framing or solid sheathing for other uses

### Installation

- Panel is available from the factory in continuous lengths to a maximum of 40'
- Interlocks with itself and HR-16 and HS panels
- Use siding starter strip to start panel
- Use channel closure at inside and outside corners with or without rubber closures
- Use standard channel at jambs without rubber closures
- Use special channel at jambs without rubber closures
- Use HC rubber closures against air infiltration
