The Berridge HS-8 and HS-12 metal wall panels are designed for horizontal and vertical wall applications and interlock with each other and with the Berridge HR-16 and HC-16 wall panels to provide endless design opportunities.

**Materials**
- 24 and 22 Gauge Steel
- 0.032 Aluminum

**Specifications**
- **Uses:** Wall, Soffit, Ceiling, Fascia, Screen Wall, Berridge Fencing System
- **Coverage:** HS-8: 8"; HS-12: 12"
- **Finishes:** Standard stucco embossing, optional smooth*
- **Fasteners:** Concealed
- **Applications:** Vertical on Fencing; horizontal or vertical over open framing or solid sheathing for other uses
- **Pattern:** HS-8: ¼" height and 5 ¾" rib with 2" reveal
  HS-12: ¼" height and 9 ¾" rib with 2" reveal

**Installation**
- Panel is available from the factory in continuous lengths to a maximum of 30’ for embossed panels.
- Interlocks with each other, HR-16, and HC-16 panels.
- Use siding starter strip to start panel at bottom of soffit or sill.
- Use channel closure at inside and outside corners with or without rubber closures.
- Use standard channel at jamb without rubber closures.
- Use special channel at jamb without rubber closures.
- Use HS rubber closures against air infiltration.

* Contact BMC for limited material availability. Smooth finish is not available for all applications.
