

Manufacturer Qualification

Berridge Manufacturing Company is a national leader in the design and manufacture of architectural metal roof, wall, and facade systems that offer designers and architects unlimited choice to create energy-efficient buildings that deliver 'signature' architectural and aesthetic impact.

Fact Sheet

Berridge Manufacturing Company specializes in the research and development of architectural sheet metal products. Berridge Manufacturing Company has provided customers with the industry's highest quality metal roofing and siding products by specializing in the research and development of architectural sheet metal products. Many similar products on the market today were originally designed and developed by the Berridge Manufacturing Company.

Berridge offers 32 products, including popular standing seam options, wall panels, shingles and metal framing. These products are offered in 34 Kynar 500® or Hylar 5000® PVDF Resin-Based Color Finishes in standard, premium and metallic colors and unlimited custom colors. All products are available in 24 gauge steel, with limited availability in 22 gauge steel and 0.032 and 0.040 aluminum for some products.

History

Berridge Manufacturing Company was founded in 1970 by Jack Berridge. During the early years, Berridge Manufacturing Company manufactured metal panels and shingles for the architect-specified market. In 1986 the company made history by introducing the first portable roll former machine capable of fabricating both straight and curved standing seam panels at the job site.

Employees

More than 200 people are employed by Berridge Manufacturing Company nation-wide in an operational or technical capacity.
