The architectural metal standing seam Berridge Tee-Panel is designed for residential or commercial construction over solid sheathing. This 1" high panel comes with an exclusive vinyl weatherseal as an integral part of the snap-on seam and can be used in curved and tapered applications.*

**Materials**
- 24 Gauge Steel
- Limited Availability: 22 Gauge Steel, 0.032 Aluminum

**Specifications**
- Uses: Roof, Fascia
- Coverage: 12 ¾”
- Finishes: Smooth
- Fasteners: Concealed
- Applications: Solid sheathing
- Seam: 1” snap-on with extruded vinyl weatherseal

**Installation - Standard**
- Panel is available from the factory in continuous lengths to a maximum of 40’
- May be site formed in continuous lengths with the Berridge SS-14 Roll Former
- Extruded vinyl weatherseal is an integral part of snap-on seam cap and prevents siphoning or flooding over seam
- Extra snap-on seam caps are factory formed to a maximum of 40’
- Use Seam Sleeve for splicing Tee-Panel snap-on seams
- Entire roof area shall be covered with Berridge approved underlayment
- Use 1” Tee-Clip with Steel panels**
- Use 1” Stainless Tee-Clip with Aluminum panels**

* Consult Curved/Tapered Tee-Panel data sheet or www.berridge.com for more information
** Consult Berridge Technical for clip spacing
